Historical Sketch of the Attakapas Literary Society

Rah! Rah! Rah! Attakapas!
A little better than Avatar!

THE ATTAKAPAS LITERARY SOCIETY, the rival and companion of the Avatar, was the first society organized at S. L. I. I. It was launched in 1901 by a set of the most earnest and studious boys and girls in the school, who put forth vigorous efforts to make it a success, and they did so. It was named "Attakapas" in honor of this section of Louisiana. Some time after the Avatar Society was organized it was decided to make of the Attakapas an exclusively boys' society, and of the Avatar a girls' society, and this worked very well for the time, but "public sentiment" seemed to favor having the membership mixed in both societies, and in the following

year the old status was restored. The Attakapas has always had a large membership and has taken a very active interest in the annual debates, winning the Julian Mouton gold medal as many times, if not more, than the Avatar. It also has interesting plays, readings and music on its programs, and drills its members in parliamentary rules. It keeps awake the social element in the school, and constantly improves the spirit of study and investigation among its members. The historian of the next generation will relate how some of the greatest men and women of the day got their start toward greatness through having in their youth been members of the Attakapas Society of S. L. I. I.

Historical Sketch of the Avatar Literary Society

THE word *avatar*, from Hindu mythology, means the incarnation of a spirit in some material form, and the Society was so named to indicate that its organization was to be itself an embodiment of the spirit of education and progress—an avatar of intelligence and culture. So far as we know, no other society has ever had this name, so we may claim its copyright.

The Avatar Literary Society was organized in 1902 and has always had a goodly number of members, running along hand in hand with its sister society, the Attakapas. In its first year the annual debating contest with the Attakapas began to be held, for the Julian Mouton gold medal. This

medal is given each year for the best individual debater of the two societies, and the Avatar has fairly divided the honors of winning it with its rival during the ten years of their history. During that time nearly all the great questions of law and government, public policy, sociology, history, philosophy and ethics, have been analyzed, discussed and illuminated, if not finally settled, by prominent members of the Avatar Society. And we have also had fine programs of music, literature and histrionics, as well as practice in parliamentary procedure. Later on, when we become members of the Legislature or of Congress, or perhaps militant suffragettes, we shall doubtless have occasion to show the valuable training and experience we had in the Avatar Literary Society at dear old S. L. I. I.

MEN'S BUILDING

S. L. I. I. Songs

(Tune: "Marching Through Georgia")

Lafayette is calling now, dear old S. L. I. I.,
Her glorious flag her boys and girls
Are waving now on high:
The watchword it is Win the Cup
Or make a noble try,
Dear old S. L. I. I. of Lafayette!

Chorus—

Lafayette! Our hearts are all with you!
Lafayette! And we will see you through!
Go and get right in the game
And show what you can do,
Old S. L. I. I. of Lafayette!

A welcome to our friends and guests
Upon this glorious day.
We wish them fair success and hope
That they'll enjoy their stay:
But what a foolish thought they think
To take the cup away
From old S. L. I. I. of Lafayette!

We only want the hundred yards,
The hurdles and the shot,
The quarter and the half-a-mile
And the relay, like as not,
The runs, the jumps, the discus,
And whatever else they've got,
Old S. L. I. I. of Lafayette!

VIVE LA S. L. I. I.

Come root with the Rooters of S. L. I. I.
Vive la Compagnie!
For they are the candy, the cake and the pie,
Vive la Compagnie!
They'll win an event every once in a while,
The hundred, the quarter, the half and the mile,
The relay, the discus—Oh, well, I should smile!
Vive la S. L. I. I.

Vive la, Vive la, S. L. I. I.
Vive la, Vive la, S. L. I. I.
Vive l'Amour, Vive l'Amour,
Vive la S. L. I. I.

(Tune: "Every Little Movement")

Thy Sons and Daughters, Dear S. L. I. I.
Shall ne'er forget
Their dear, beloved, old S. L. I. I.
Of Lafayette;
We love thee and we shall e'er uphold
Thy honor,
And always fight
Thy battles,
And be true to thee forever,
Forever more.

THE "SCRUBS"

The Football Season

THE season of 1911 marked the beginning of athletic relations with university teams, and no games of football with secondary schools were scheduled. A lack of experienced men and the sudden changing from high school to college games accounts largely for the apparently poor showing made by our gridiron heroes. The loss of Coley and the Vincents was keenly felt and their places were filled with inexperienced players. The showing made against the L. S. U. team, state champions, which was held to a 42-0 score and a week later against Tulane, which scored only 27 points in a longer game, caused fond hopes to rise for a successful season.

Louisiana College shattered these expectations when we were given the short end of the score in a 9-0 contest at home. Later we relieved the sting of defeat by holding them to a no-score game in Pineville. This was the best-played game of the

season. Louisiana College having the ball on the six-yard line with first down and being thrown for a loss of four yards in the three vain efforts to put the ball over. The latter part of the game the ball was in our enemy's territory continually, and after the game two of their backs had to be helped to the dressing room, so fierce were the attacks of our boys.

The triumph of the season was the Thanksgiving game, when we took State Normal into camp to the tune of 31-5. The last game of the season was lost to a weaker team when, with Bercegeay, Bourque and Williams on the side line, we held Jefferson College 5-11.

Our hopes for next year run high, and with our indomitable Bercegeay leading the team and a good supply of material developed by our Scrubs the past season, we feel sure that the scores of 1912 will be such that any school may feel proud to call theirs.

History of the Alumni Association

MISS STELLA ROY
President Alumni Association

IN the year 1903 the Southwestern Louisiana Industrial Institute opened its doors and sent out into the world its first class of graduates. This handful of boys and girls, eager to do anything in their power to promote the welfare of their beloved Alma Mater, banded themselves together into an organization which they named the Southwestern Louisiana Industrial Institute Alumni Association. Mr. Pothier Voorhies was chosen as its first president. All graduates of any of the courses offered at the Institute were eligible for membership, and in a few years the handful had become a hundred; and now that the Association is in the ninth year of its existence the roll has been increased until it contains several hundred names.

The Alumni is a live body as can readily be seen by the enthusiastic meetings which are held yearly. These meetings are attended by alumni from all over the state, and are fol-

lowed by a supper, at which the Governor, the members of the Board of Trustees, and other prominent men of the section and state are present. Smaller meetings, are held frequently during the session and much good work is being done.

Our alumni are all succeeding in their chosen professions; we have members in every walk of life and each is a credit to his Alma Mater. As in all things human, however, time does

MR. GEORGE CROUCHET
Secretary-Treasurer Alumni Association

not pass without bringing us sorrow. Grim death has walked amongst us and carried into the great beyond some of our most promising alumni, but we bow before the decrees of the All-Wise, and thank Him for having given us the chance to know these splendid boys and girls.

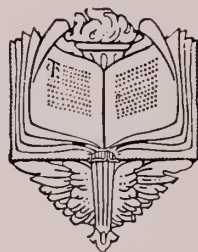

The Alumni Scholarship Fund was started about two years ago and is made up of voluntary contributions. The

money is loaned each year to a worthy student, and is to be returned within two years after the applicant has graduated and gone to work, with an additional interest of 4 per cent. The cause is a worthy one and good work has been done so far.

The Southwestern Louisiana Industrial Institute Alumni stands ready to act as a bodyguard to its Alma Mater—it is

ready to defend her honor, uphold her reputation, and do all that it can to promote her welfare. The Institute is dear to the heart of all her graduates, who echo at all times this simple but loyal wish:

“Long may she live and prosper!”

Our large resources and advantageous position in the financial world enables us to extend the fullest accommodation to our customers at all times

Wealth is not an end to strive for, but an opportunity. The pursuit of wealth is not only legitimate but a duty, because there can be no appreciable social progress without wealth. And if a man be a man and his fortune be honestly won and applied, it will but increase his usefulness and multiply his power for doing good to his fellow man. And the lessons of self denial learned and the habits of thrift and economy he must form in his efforts to accumulate money beyond his own immediate need, do inevitably tend to develop and strengthen his character in good directions. :: :: :: :: ::

LOUISIANA STATE UNIVERSITY

Thomas D. Boyd, A.M., LL.D., *President*

The State University is organized into the following colleges and schools:

1, The College of Arts and Sciences, offering literary, scientific, pre-medical, and commercial courses; 2, the College of Agriculture, including the four State experiment stations and the department of agricultural extension, and offering a four-year course and a short winter course in agriculture; 3, the College of Engineering, offering courses in civil, mechanical, electrical, and chemical engineering; 4, the Audubon Sugar School, offering courses in sugar agriculture, sugar chemistry, and sugar engineering; 5, the Law School, offering courses in civic and common law; 6, the Teachers' College, offering courses for high school teachers, principals, and parish superintendents; 7, the School of Agriculture, offering a three-year agricultural course to applicants who cannot enter the College of Agriculture; and 8, the Graduate Department, offering advanced courses to those who have graduated here or elsewhere.

Graduates of the Southwestern Louisiana Industrial Institute are admitted to the University without examination and are given advanced standing for work of college grade already completed.

Tuition is free to students from Louisiana; sixty dollars a year to students from other States and foreign countries. Living expenses are very low.

The regular annual session opens on the third Wednesday in September and continues thirty-six weeks. The SUMMER SCHOOL opens on the first Monday in June and continues nine weeks.

“Engraving for College and School Publications”

THIS is our Book of Instructions which is loaned to the staff of each publication for which we do engraving. It contains 164 pages, over 300 illustrations, and covers every phase of the engraving question as it would interest the staff of a college or school publication. Full description and information as to how to obtain a copy sent to anyone interested.

HALFTONES
ZINC ETCHINGS

COLOR PLATES
DESIGNING

For College and High School Annuals and Periodicals a specialty. Also fine copper plate and steel die embossed stationery such as

Commencement Invitations, Announcements, Visiting
Cards, Fraternity Stationery, etc.

ACID BLAST HALFTONES

We have the exclusive rights in this territory to the use of the Levy Acid Blast process for etching halftones. This method insures deeper and more evenly etched plates than it is possible to get by the old tub process, and we charge no more for them than others do for the common kind.

The engravings for the L'Acadien were made by us.

Mail orders a specialty. Samples free if you state what you are especially interested in.
